

Extra Credit Opportunity

Photograph and submit an exceptional feature photograph

Find and photograph a compelling, exceedingly well-executed feature photograph.

Your picture needs to surprise and dazzle in order to receive credit. Do not submit a picture for this extra credit opportunity if you do not find one that is truly exceptional.

Requirements

- Photograph an exceptional feature photograph.
 - Hunt and make your photograph using the guidelines from the Feature Photography assignment.
- Submit your picture before the end of the semester.
 - Only one picture per student will be considered. Make sure you choose an excellent image.
 - I will not look at the extra credit submissions before the end of the term.

Why participate?

Your extra credit activity will be considered for the class participation portion of your grade at the end of the term. If you have weak assignment scores, extra credit opportunities can help your class grade.
